

RELIGIOUS STRUCTURES

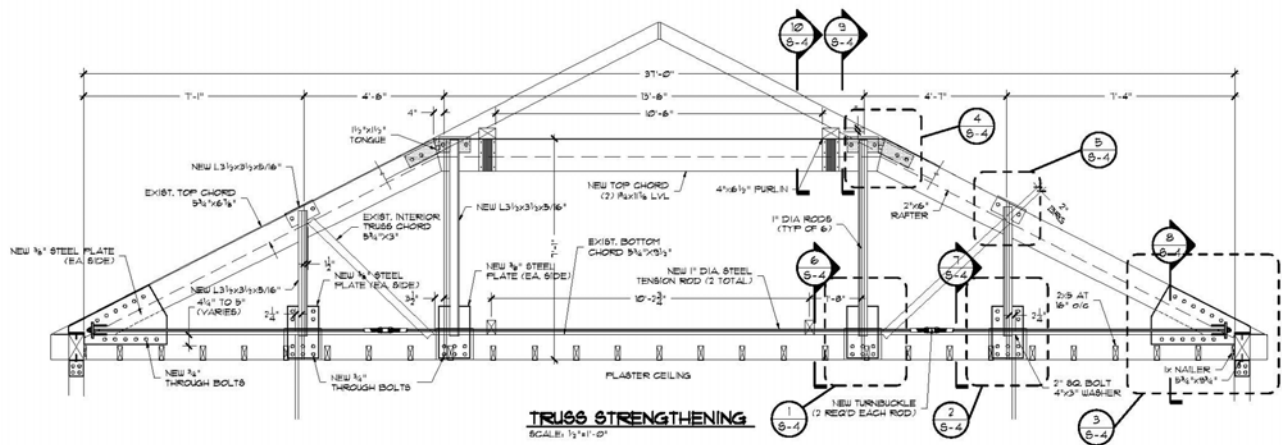

Mystic Congregational Church, Mystic, CT

St. Patrick's Cathedral, Norwich, CT

STRUCTURAL ENGINEERING SERVICES:

- Investigate structural failures of archaic post and beam systems using our specialized knowledge of historic building techniques;
- Provide recommendations for structural repairs;
- Design new additions using our understanding of how modern materials interact with the existing structural fabric of historic buildings;
- Understand and implement current building code standards as they apply to historic structures;
- Coordinate design with architects, builders, owners, and building committees to create lasting and efficient framing systems that respect and preserve the historic nature of these structures;
- Use our experience to balance the need for structural intervention with aesthetic and historic preservation concerns;
