

SPECIAL INSPECTION

Glastonbury Mausoleum, Glastonbury, CT

Occum Fish Ladder, Occum, CT

SECONN Warehouse, Waterford, CT

Bob's Distribution Warehouse, Norwich, CT

STRUCTURAL ENGINEERING SERVICES:

- Special Inspections ensures that a structure is being built according to approved framing plans and other contract documents;
- Site visits are made throughout various phases of construction to observe that the structure is being built according to plan;
- Samples of different building materials are taken and tested to determine if they meet the minimum design requirements;
- Connections are observed and tested to see that they will adequately transfer the design loads;
- Periodic reports are written to document the different phases of construction and materials inspected;
- Problems arising from improper construction or inadequate materials are solved in a timely manner;
- A final inspection report is provided stating that the building has met the special inspection requirements.
