PROJECT HIGHLIGHTS:

Location: Norwich, Connecticut
Development: 770,000 S.F. Distribution Center & Warehouse Facility
Status: Completed in 2006
Total Project Cost: \$20,000,000

SERVICES PROVIDED:

- Conceptual Planning and Construction Cost Estimating
- Final Site Design & Engineering
- Final Architectural Design
- Local Permitting
- Construction Drawings & Specifications (Architectural, Site/Civil & Structural)
- Construction Administration

DESCRIPTION:

CLA Engineers and Fred Marzec & Associates collaborated to provide site feasibility designs, conceptual building designs and cost estimates for the multiple office and warehouse additions to the Bobs Distribution Center and Warehouse in the Taftville section of Norwich. Upon completion of the conceptual design phase, site layouts and building schematics were formalized into final contract documents. Fred Marzec and Associates provided all planning and architecture services from concept to final project close-out. CLA Engineers provided all site / structural engineering and permitting from concept to final project close-out.
