East Hampton WPCA

East Hampton, Connecticut

CLA Engineers has provided on-call services to East Hampton WPCA since 1997. During this time CLA has provided a variety of services.

DESIGN SERVICES:

Provided planning, design, construction administration and inspection for various collection system improvement projects.

PRIVATE RESIDENTIAL AND COMMERCIAL DEVELOPMENT SERVICES:

Provided technical review of water and sewer connection plans for proposed residential and commercial developments including multi-family, apartment complexes, commercial developments and residential subdivisions:

- Reviewed submitted plans/details, and bond estimates and provided recommendations. Attended preconstruction meetings and provided part time or full time construction inspection for proposed developments.
- Provided review and construction inspection for over 50 residential /commercial development applications including the following: Seven Hills Estates, Royal Oak Estates, Laurel Ridge, Spice Hill Estates, Oak Acres, Hampton Woods, Skyline Estates, Barton Hill Road Subdivision, and Edgewater Hill Estates.
- Provided inspection for gravity sewer, pump stations, force mains and multiple low pressure sewer systems. Provided inspection for private water distribution systems.
- Reviewed final as-built plans and recommended final acceptance of public and private utilities.

ADDITIONAL SERVICES:

- Developed town wide system mapping to identify all town water and sewer infrastructure for planning purposes. Provided map updates as needed.
- Developed book of standard details and procedures for prospective developers.
