Stonington WPCA

Stonington, Connecticut

CLA Engineers has provided on-call services to Stonington WPCA since 2003. During this time CLA has provided a variety of services.

PRIVATE RESIDENTIAL AND COMMERCIAL DEVELOPMENT SERVICES:

Provided technical review of sewer connection plans for proposed residential and commercial developments including multi-family, apartment complexes, commercial developments and residential subdivisions:

- Reviewed submitted plans/details, and bond estimates and provided recommendations. Attended preconstruction meetings and provided part time or full time construction inspection for proposed developments.
- Provided review and construction inspection for over 25 residential /commercial development applications including the following: Stoneridge Assisted Living, Lambs Way, Greenhaven Road, Old Mystic Estates, Rock Ridge, Jameson Court, Admiral Cove, Whaler Heights Jacob Hollow, Castle Hill Road and Grandview Farms.
- Provided inspection for gravity sewer, pump stations, force mains and low pressure sewer systems.
- Reviewed final as-built plans and recommended final acceptance of public and private utilities.

ADDITIONAL SERVICES:

- Developed book of standard details and procedures for prospective developers.
- Provided WPCA inspection for private sewer services within subdivisions.
- Provided “Call-Before-You-Dig” Mark outs for all sewer facilities.
